WHAT'S INSIDE

Dreamessence™

KEEP DREAMING

Comforters made with the lasting loft of DACRON® DREAMESSENCE™ fiberfill are taking the industry to new heights.

That's because our revolutionary fiberfill technology uses fine denier fibers to deliver cloud-like loft and maintains softness even after numerous washes. Each fiber is individually tailored to deliver the exceptional fullness that creates the kind of big, fluffy comforters you'll always be dreaming about.

The Wash Test

Wash after wash, tests show that bedding products with DACRON® fiberfill hold their shape longer than down and competitive down-alternative products.
